

replace the OR-48 feet seats

1. Prepare accessories and tools as below photos:
2pcs feet, 6 sets crews, nuts and washers, 1pcs
screwdriver, 1pcs vise and 1pcs hand drill.

2. Take out all the accessories from the bag.

3. Open the inner zipper at the bottom of the bag.

4. Find out the screws location which fix the feet seat at the bottom of the bag.

5. Use a screwdriver and vise to remove the screws which fix the feet seat.

6. Take the new feet seat as a reference, use hand drill to drill out 3 holes for holding the new feet seat.

7. After drilling the holes, use screwdriver and vise to fix the new feet seat with screws.

8. The inner and outside is as below photos after fixing the new feet seat.

9. Put on the bottom cushion, and zip the zipper, the replacement is completed.
